i deposit usdt trc20 150 dolar

Could you please send us a screenshot of your transaction? The thing is, users often purchase BTC from a third-party merchant but mistakenly fail to complete the transfer of funds to our platform. A screenshot will help us verify that everything went through correctly and that the funds were indeed sent to your personal address in the system. This will allow us to check the status more quickly and, if necessary, promptly forward the information to the technical department for clarification. Thank you for your cooperation and we hope to resolve this issue as soon as possible! We are always available to assist you if you require additional support.
